High Quality Paper Cutter with Exclusive Blade Technology

Super duty precision paper cutter, top quality with office convenience

This precision computerized paper cutter includes a laser optical guide for infallible accuracy in all cutting operations. Automated finishing functions include jogging and assisted paper retrieval, and DFG DuraBlade* technology delivers consistent cutting performance that outlasts other blades by multiples.

Embedded microprocessor allows task memory, eject, and repeat functions. Accu-Cut technology (by DFG) ensures total accuracy in every single cut. DFG DuraBlade* premium cutting knife is rated for 10,000 cuts without sharpening.

* DuraBlade option available at purchase

Specifications:

- 400-sheet cutting capacity; 17½" Cutting Width
- Fully automatic blade, clamp and back gauge position mechanism
- Digital cutting technology ensures accurate cuts
- Key lock function
- Optical laser cutting guide for easy assessment
- Modular design optimizes space usage
- Two-handed operation ensures safety
- Front and rear transparent safety guards

Blade Life Ratings:

- Typical steel paper-cutting blade: 1,000 cuts before blade sharpening required
- Premium alloy paper-cutting blade: 3,000 cuts before blade sharpening required
- Floor-model industrial machine blade: 5,000 cuts before sharpening required
- DFG DuraBlade: at 10,000 cuts, blade is just beginning to wear
