High Quality Paper Cutter with Exclusive Blade Technology

Super duty precision paper cutter

DFG's DigiCut20/25 is the most advanced programmable digital paper cutter in its class. DFG AccuCut technology guarantees an accurate cut every single time. The embedded computer provides fully programmable functions.

DigiCut 20 is the first and only electric cutter with variable clamping strength to cut a wide variety of papers and projects without needless damage or marking. Ideal for the demanding digital market, the DigiCut20 delivers the solid value that makes DFG, and YOU, different from the competition.

Features:

- Nine (9) programmable memory sets with 9 steps in each program, and easy memory keying
- Electric hand wheel with variable speed control for manual back gauge adjustment
- Optical cutting line
- Front laser safety switch, and transparent safety guards on rear table
