DocuPunch

http://www.dfgus.com/mechbinding/automatic_punch.html#docupunch

High-speed automatic punch capable of producing 30,000 punched sheets per hour.

Punches preprinted, collated documents directly from your copier or printer (including mixed stocks from 16 lb. bond to 110 lb. index). Also punches tabs pre-collated into the finished sets.

Designed with the On-Demand market in mind... setup time under one minute, die changes in seconds and hands free operation so your operator is free to perform other tasks.

And, with an incredibly small footprint and heavy-duty casters, the DocuPunch® is assured to fit even in the tightest of space requirements.
