OfficeComb

<http://www.dfgus.com/mechbinding/comb.html#officecomb>

Made of a **sturdy die-casted metal base** and a strong plastic housing unit, the OfficeComb is a light duty, reliable, user-friendly machine.

The OfficeComb can punch up to **15 sheets** of 20lb paper and can bind up to 425 sheets.

Utilizing **full disengagement-pin** design, our punched paper is free from partial punches, on any size project. Our disengagement-pin design uses independent coil spring mechanisms on each pull pin that allows the pins to disengage with a crisp snapping action. Our punch pins are heat treated and precisely ground to ensure consistent, clean, punching.

Punch any length paper with our **open throat**. Our design makes it possible to punch paper of any length with no restrictions.

Our **comb opener** teeth easily open with the slightest of pressure with our comb binding handle.

DFG enforces and abides by high quality and environmental standards, which is why we are **ISO9002 and APQP certified**.

OfficeComb Benefits:

- **Heavy Duty Manual Punch:** up to 15 sheets (20 lb)
- **Full Disengagement Pins:** Ensures a completely clean professional punch without partial punches on any length of paper
- **Binding:** up to 1.7" (425 sheets), 11" standard punch width
- **Lightweight Design:** Extensively utilized CAE (Computer Aided Engineering), greatly reduced machine weight

- **Adjustable Punch Margin:** Assists in controlling the punch margin depth in order to maximize a book's tear resistance
- **Comb Size Selector:** Built-in indicator shows suggested comb size
- **Side Margin Control:** Center punched holes quickly and easily
- **All Metal Construction**
- **Non-Skid Feet:** Firmly holds machine to work surface
- **Large Waste Drawer**
- **ISO9002 and APQP Certified:** DFG enforces and abides by high quality and environmental standards.
